

victor and VideoEdge 6.2

Extended analytic capabilities to collect even more object metadata from Illustra IQ and other cameras while gaining greater control over event-based alarm activation.

Axis cameras now included in victor Forensic Search

Extend the reach of your forensic searches using object metadata from supported Axis cameras. With extended support for the Axis VAPIX API, victor & VideoEdge are now capturing even more analytic metadata leading to increased situational awareness and investigative power.

Event Activator action to arm or disarm specific alarms

The Event Activator allows users to arm or disarm multiple linked events and actions for specific use cases on demand. This feature allows users to enable alarms when needed or to disable, reducing alarm noise and increasing focus on critical situations. Graphical map representation of event & alarm state enable operators to quickly identify system status.

Illustra IQ Dual Sensor & Illustra AI Object Classifications

The ever-growing portfolio of Illustra IQ cameras is fully supported on victor & VideoEdge systems. The Illustra IQ Flex Gen4 Dual Sensor Camera is ideal for applications that require a flexible, cost-effective surveillance solution that provides wide area coverage along with detailed images. The power of victor Forensic Search is extended even further now with the addition of Handbag, Backpack, Suitcase & Cart object-types. Quickly locate abandoned luggage or pair with other search rules to quickly find a person of interest or a piece of abandoned luggage.

victor VMS elevated by new hardware delivering even higher performance

victor Client Workstations

These workstations are co-designed to pair with the victor Video Management System and VideoEdge Network Video Recorders.

Benefits

- Turnkey solution with victor Pro Client preinstalled speeds deployment and simplifies integration with existing systems and VideoEdge NVR infrastructures
- AD victor Workstations are qualified and validated under the most extreme test conditions to ensure the highest possible performance for victor VMS workloads
- Protected against cyber-threats by comprehensive multilayer security in accordance with the rigorous standards of the Johnson Controls Cyber Solutions Product Security Program
- 3 Year Warranty, including ProSupport with Next Business Day on-site service, provides additional protection and peace of mind

Choose from two options, based on your surveillance needs, to deliver an optimal user experience:

victor Performance Workstation

- Connect up to four monitors, with up to 8K resolutions supported, delivering smooth playback of live and recorded high definition video on multi-screen desktop setups or victor Command Centre video walls

victor Compact Workstation

- Connect up to two monitors, with up to 4K resolutions supported, delivering smooth playback of live and recorded high definition video
- Effortlessly setup a victor Compact Workstation and AD Professional Desktop monitor, with an all-in-one mounting and cable management solution, where space is limited

victor Application Server

Available in a 1U form factor, victor Application Servers are ideal when managing video from VideoEdge NVRs via the victor VMS, delivering powerful performance and enterprise class features.

Benefits

- Scalable from single-site locations to enterprise-level deployments (SAS and MAS) supporting thousands of video recorders
- Qualified and validated under the most stringent test conditions to ensure the highest possible performance for victor VMS workloads
- Simple to monitor, manage, update, troubleshoot and remediate issues from any location with iDRAC9 remote administration
- Fully redundant hardware design eliminates single points of failure and maximizes uptime
- Protected against cyber-threats by comprehensive multilayer security in accordance with the rigorous standards of the Johnson Controls Cyber Solutions Product Security Program
- 5 Year Warranty, including ProSupport with Next Business Day on-site service, provides additional protection and peace of mind

Ordering Information

Please note, software will be available for download in the support portal - please make sure to register [here](#)

Model Number	Description
ADVC-WSPERF-M4	victor Performance Workstation, Win10, victor Pro Client, Quad Monitor, NBD On-site Support
ADVC-WSCMPT-M2	victor Compact Workstation, Win10, victor Pro Client, Dual Monitor, NBD On-site Support
ADVC-WSCPT-MM	victor Compact Workstation - All in One monitor mount

victor Application Server

Model Number	Description
ADVAS-STD	victor Application Svr 1U, Win Svr 22, iDRAC9, RAID 1, victor Software and Licenses sold separately
